

Bio-Degrader

Organically carbon based, thatch degrader.

Bio Degrader is specially formulated for turf to help accelerate the decomposition of thatch. To help accelerate this process we added high levels of Bacillus Species with Carbonic Enzymes. To further help speed this process we placed these various species of Bacillus microbes with carbonic enzymes as a food source to help these bacteria thrive better in a new environment.

Bio Degrader will also help aid the nitrogen fertilizer become more readily available to the Turf.

STORAGE

Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

Dispose of Waste Material according to local, state, and Federal environmental laws and regulations.

Mixing Instructions

Follow this mixing sequence:

1. Fill tank $\frac{3}{4}$ full of water
2. Add Bio Degrader in quantities needed per directions
3. Do not Add other Fertilizer, herbicides or pesticides to tank mix.
4. Super Hume or Super Seaweed can be added for improved action.

ANALYSIS

Several Bacillus Species with Carbonic Enzymes

DISCLAIMER

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the users responsibility to conduct a trail application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test. Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.

Compatibility

Test-To ensure compatibility with foreign spray mixes, a jar & Crop to be Sprayed, compatibility test is recommended before mixing with other products other than water in the tank. Bio 21-0-0 will lower the pH of spray tank mixes and reduce the hydrolysis of pesticides.

APPLICATION

The standard application of BIO DEGRADER is 3 oz/1000 ft² every ten days, for the first thirty days. After 30 days cut application frequency down to every 2 weeks.

Keep thatch as moist as possible for better results.

Apply with just enough water to soak the thatch layer.

Apply with a Super Hume or Super Seaweed for increased control.

Warranty

BUYER ASSUMES ALL RESPONSIBILITY FOR USE, STORAGE, HANDLING AND DISPOSAL OF THIS PRODUCT WHEN NOT IN ACCORDANCE WITH LABEL DIRECTIONS. UAS of AMERICA AND ITS DISTRIBUTOR'S LIMIT OF WARRANTY EXTENDS ONLY TO REPLACEMENT OF EFFECTIVE PRODUCT.
