MICRO-BOOST

Complex Micro-Nutrients & Vitamins

ANALYSIS:

Chelated Magnesium as (Mg)	1.70%
Chelated Zinc as (Zn)	0.75%
Chelated Iron as (Fe)	3.50%
Chelated Manganese as (Mn)	0.75%
Boron as (B)	0.20%
Molybdenum as (Mo)	0.003%
Combined Sulfur as (S)	4.00%

Derived from: Magnesium Glucoheptonate, Zinc Glucoheptonate, Iron Glucoheptonate, Sodium Molybdate, Manganese glucoheptonate Complex and Sodium Borate.

Directions for Use:

Ornamental & Young Plants: Mix 2 teaspoons Micro-Boost with 1 gallon of water. Moisten both sides of the leaves only to the point of run-off. Use misting spray bottle to apply. *Use every 7-10 days or as needed.*

LAWNS/COMMERCIAL TURF: Apply 3 oz per 1000 FT2 with hose end. Set dial on 2oz/Gal. Apply before or after each fertilization. *Use min 2 times per season.*

AGRICULTURE: Apply 1-2 pt for ROW CROPS to 2-3 qt. for FRUIT TREES, MICRO BOOST with sufficient water to cover per acre. Moisten both sides of the leaves only to the point of run-off.

*Repeat as indicated visually or by leaf tissue test, or as part of a regular maintenance foliar feed program. *
DO NOT mix with other products, Highly concentrated DO NOT over apply.

To ensure compatibility with foreign spray mixes, a jar compatibility test is recommended before mixing with other products, other than water in the tank. OMNIPLEX 3500 will lower the pH of water.

It is recommended not to use this product with fungicides, spray oils, or pesticides. However, if applied with a fungicide, spray oil, or pesticide, it is the users responsibility to conduct a trail application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test is recommended. Always read label instructions.

Why Do I need Micro-Boost?

Micro-Boost is a chelated Magnesium, Manganese, Zinc, Iron, Sulfur, Molybdenum and Boron Source, designed for soil and/or foliar application, to prevent and correct pre-existing Mg, Mn, Zn, Fe, Mo, S and B deficiencies as indicated by plant leaf, visual and/or soil testing. Since the ingredients in Micro-Boost are 100% water soluble and immediately available to the plant (When used as directed), this product is extremely efficient as a foliar spray in situations where a rapid response is desired. Results are often evident one to two days after application. Research has shown the plant can assimilate Micro nutrients better via foliar application than if the Micro nutrients were applied to the soil. The response is quicker and seems to be more effective.

Storage: Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).

"COMMERCIAL USE ONLY"

Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.
