Hudson, FL 34667

Dear Mr. Pescenka,

Upon review of the submitted documents and well reasoned arguments for the approval of UAS' humate product, the committee has ruled in favor of including Super Hume in the OCIA Brand Name Material list. Please note the following disclaimers regarding promotion of your product.

⇒ *Use of the OCIA seal, logo and other trademarks is not granted for use with approved Brand Name Materials. However, literature and promotion may clearly state that your product(s) have been reviewed and approved for use in OCIA certified organic production systems.*

Thank you for your patience.

Respectfully,

Peter Murray
